

New Dimensions – Awakening Service

Is there a God?

How do I develop a relationship with God?

How do I find spirituality in Judaism?

Can spirituality bring me contentment and joy?

Spirituality cannot be learned in a book; it must be experienced.

Experience our new Awakening Service,
which incorporates easy movement, song, prayer and meditation
in a framework of the Kabbalistic four worlds
to awaken us physically, emotionally, intellectually and spiritually.

Participate with congregants Steve Cohen and Hope Honeyman
in this evolution of Jewish worship on the following dates:
